DETAILED ACTION

Response to Amendment

1. Applicant cancelled claim 2 and amended claims 1 and 3-4.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance for claim 1:
none of the prior art expressly teach or suggest either alone or together (see page 5 paragraph 1 of REMARKS) a method for rendering using symplectic ray tracing, the practice of ray tracing includes "deriving a pre-stored Hamiltonian corresponding to the object," "acquiring all derivatives of the Hamiltonian by applying fast automatic differentiation techniques," "forming a Hamilton's canonical equation," and practicing symplectic integration by applying a symplectic Euler method to the formed Hamilton's canonical equation." Further, because claim 3 is substantially similar to claim 1, claims 3 and claim 4 (dependent on claim 3) also meet necessary conditions for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
